

MEHMET GORMEZ

Applied Computer Science Student
Software Development & AI Automation

Address: Paal/Beringen (3583)- Belgium
Phone: +32484665658
Email: mhmt.23.ali@gmail.com
Website: www.mrgormez.com

PROFESSIONAL SUMMARY

Applied Computer Science student at Thomas More, expected to graduate in **2027**, with hands-on experience building **full-stack applications**, **Python** and **n8n automations**, and **AI chat** and **voice bots**. Experience with **Python**, **C#**, **JavaScript/TypeScript**, **React**, and **SQL**. Seeking a software engineering internship to contribute to **backend development** and **AI-powered tools** while strengthening software engineering practices.

WORK EXPERIENCES

FED Digital Agency - Technical Manager and Full Stack Developer

Dubai(Remote) - UAE | 2026 - present

- Developed more than 10 different kinds of websites and apps for enterprises to have a better marketing website.
- Supporting the clients if there are any problems with the applications/websites.

Boticum - Full-Stack and Automation Developer

Dubai(Remote) - UAE | 2025 - present

- **Designed** and **developed Boticum CRM** end to end using AI-assisted development: a multi-tenant **SaaS** platform built with **Next.js**, **React**, **TypeScript**, and **Supabase/PostgreSQL**.
- Built customer management, sales **pipelines**, and a unified WhatsApp and Instagram inbox with **Meta API** and **webhook integrations**.
- Developed an event-driven automation engine integrating the **OpenAI API** to classify customer message intent and trigger workflows.
- Implemented **REST APIs**, tenant data isolation using **PostgreSQL Row-Level Security**, and configurable **role-based access controls**.
- **Developed** a companion **mobile application** using **React Native** and **Expo**, with shared business logic across web and mobile.
- Built 20+ **Python** and **n8n** automation workflows for lead tracking and customer follow-up across social media platforms.

Synergie - Network Field Specialist

Belgium | 2024 - 2025

- Mounting/Racking/Stacking/Configuring of many devices (modem, router, switch, firewall, load balancer)
- Hardware installation and replacement

EDUCATION

Bachelor of Applied Computer Science

Thomas More College

2024-2027
